

2018 ASPE Annual Conference

Immersion Courses | Saturday, June 16, 2018

Half Day: Member: \$185 | Non-Member: \$215

Full Day: Member: \$360 | Non-Member: \$420

8:30 AM – 12:30 PM

IM 1 Pt. I: Foundations - History, Case Development and Training

Authors: Howard Gregory, MS; Amelia Wallace, MMHPE; Carrie Bohnert, MPA; Holly Hopkins, DNP, CNM; Gayle Gliva-McConvey; Bob Kiser, BA; Shirley McAdam; Cathy Smith, PhD

Overview: Participants will have the opportunity to develop tools and strategies for working with SPs in education and assessment. Activities include discussion, interactive simulation, large and small group conversation circles, opportunities for reflection and portfolio development. Templates, key resources, ASPEs standards of best practice and references will be provided. Novice SP Educators will benefit most from this workshop. However, more experienced participants will take home a deeper understanding of SP methodology and how it applies to individual practice. This is also a foundational module of the ASPE Core Curriculum Program.

1:00 PM – 5:00 PM

IM 1 Pt. II: Foundations - Feedback, Debriefing, Assessment

Authors: Howard Gregory, MS; Amelia Wallace, MMHPE; Carrie Bohnert, MPA; Holly Hopkins, DNP, CNM; Gayle Gliva-McConvey; Bob Kiser, BA; Shirley McAdam; Cathy Smith, PhD

Overview: Participants will have the opportunity to develop tools and strategies for working with SPs in education and assessment. Activities include discussion, interactive simulation, large and small group conversation circles, opportunities for reflection and portfolio development. Templates, key resources, ASPEs standards of best practice and references will be provided. Novice SP Educators will benefit most from this workshop. However, more experienced participants will take home a deeper understanding of SP methodology and how it applies to individual practice. This is also a foundational module of the ASPE Core Curriculum Program.

8:30 AM – 5:00 PM

IM 2: Neurological and Musculoskeletal Systems Comprehensive Physical Exams for SP Educators

Authors: Tonya Thompson, MD, MA; Karen Reynolds, RN, MS; Marjorie Lee White, MD, MPPM, MA

Overview: Are you an SP Educator and have enjoyed part 1 of the PE exam course involving the cardiovascular exam? Come make your knowledge base in physical exam skills even stronger with part 2, the neurologic and musculoskeletal exams. You will leave this immersion with an improved understanding of physical exam skills, the “why” behind specific medical findings, and greater confidence in working with SP's and case experts.

8:30 AM – 12:30 PM

IM 3: The Basics of Scholarship: Transforming your everyday work into scholarship and have fun doing it!

Authors: Shawn Galin, PhD; Louise Clark, MFA, PhD; Grant Cloyd, MFA; Shirley McAdam; Karen Szauter, MD

Overview: This workshop will provide foundational research skills to support SP educators in transforming their daily work into scholarship.

1:00 PM – 5:00 PM

IM 4: Basics of Literature Review and Systematic Literature Review

Authors: Karen Szauter, MD; Louise Clark, MFA, PhD

Overview: The application of SP methodology continues to grow as do the number of annual publications describing SP related innovations or research projects. Keeping up with the literature is a daunting task and requires a disciplined approach. Contributing to the literature

allows SP educators to grow professionally and help to advance our field. Whether a consumer or contributor, managing a literature search provides the foundation for future scholarly work.
