Things to Do in Atlanta

WHETHER YOU'VE GOT A FEW HOURS OR DAYS, STAY AND PLAY YOUR WAY WITH THESE FUN THINGS TO DO IN ATLANTA!

Atlanta offers tons of fun for families, kids and couples. There are so many things to do in Atlanta — from top attractions and history, to outdoor adventures and award-winning culture — you're sure to find seasonal sensations year-round! Check out <http://www.atlanta.net> for more information. To help you get your bearings, the ASPE conference hotel, the Grand Hyatt, is located in the Buckhead part of Atlanta, an area famous for its nightlife.

To create your must-have memories, start with this list of 50+ fun things to do in Atlanta:

- Alliance Theatre
- Atlanta Botanical Garden
- Atlanta Braves and Turner Field
- Atlanta's Eclectic Neighborhoods
- Atlanta Falcons at the Georgia Dome
- Atlanta Hawks and Atlanta Dream at Philips Arena
- Atlanta Higher Education Centers Score an A+ in Culture!
- Atlanta History Center

NOW FOR SOME "PICKS" FROM OUR LOCAL SP EDUCATORS:

KITTY'S PICKS: Piedmont Park and the Atlanta Botanical Gardens, shopping and midtown restaurants Nan's (Thia) and STK (steak).

SCOTT'S PICKS: If you're a history-buff like me you'll want to visit the Cyclorama and Civil War Museum, near the Atlanta Zoo, which provides a brief narrated history of the Civil War battles including, and around, Atlanta. The Cyclorama is a painting — 42 feet tall and 358 feet in circumference, and is said to be the largest painting in the world. The narration is available in five languages. Also the Kennesaw Mountain Battlefield is about 25 miles from downtown Atlanta and includes three Civil War Battlefields and 17 miles of walking trails. For dinner, Two Urban Licks, near the Carter Presidential Library, is not to be missed. The atmosphere is phenomenal and the menu includes a creative and eclectic American cuisine. <http://www.twourbanlicks.com/sub-food.htm>

CONNIE'S PICKS: The Lazar show at Stone Mountain, the Fox Theater, Zoo Atlanta, the Georgia Aquarium and the Atlanta Botanical Gardens. The Varsity, billed as the World's largest drive in restaurant and serving customers since 1928, is an Atlanta institution and not to be missed. What'll you have? The chili slaw dogs with rings and a Frosted Orange are not to be missed!

Welcome to Atlanta, Georgia!

The Georgia Consortium of Standardized Patient Educators welcomes you to the 12th Annual ASPE Conference. The Conference Committee has been hard at work making this year's conference better than ever before with sessions that will appeal to everyone from the novice to the most experienced SP educator. I think you'll find the program very exciting and this stands to be the very best conference ever!

And for the first time ever, there is a special section of the conference designed especially for Standardized Patients. On Saturday, a full day of workshops is being offered for SPs including plenary sessions as well as hands on workshops designed to immediately enhance their skills. We are very excited that the Committee chose Atlanta to pilot this idea.

Our social evening has moved to Sunday and the cost is included in your conference fee so everyone will be there! This will allow you to reconnect with colleagues earlier in the conference and provide a less frenetic atmosphere for the examination of the posters, into which so much work goes. Throughout, the conference sessions will enhance your abilities in communication & professional skills, history taking, physical exam and physical simulation skills, hybrid simulations, and scholarly research. There is truly something for everyone at this year's conference.

There is much to do and see while in Atlanta so hopefully you've included enough time here to take in some of the sights. The beautiful historic Fox Theatre in midtown is Atlanta's premiere venue for entertainment so check out what's going on while you are in town. The Martin Luther King Jr. National Historic Site is a uniquely powerful destination with a museum and a collection of Dr. King's writings.

Stone Mountain is the world's largest exposed granite monolith with relief carvings of Confederate notables surrounded by attractions and recreation in a natural environment and an amazing Lasershow Spectacular every evening. Visit the Georgia Aquarium to see the Beluga Whales and the other sea life in the World's largest aquarium. Favorite outdoor activities include Zoo Atlanta and the Atlanta Botanical gardens.

If you want to venture farther outside the city, Georgia has both beautiful beaches to the east (think Savannah, St. Simon, and others) and gorgeous mountains to the north where you'll reach the foothills of the Blue Ridge Mountains.

The Georgia Consortium includes: Clinical Skills USA and Clinic Skills Evaluation Collaboration, Emory University, Georgia Regents University, Mercer University, Morehouse School of Medicine, and the Philadelphia College of Osteopathic Medicine.

Y'all have fun here and we hope you experience that unique and distinctive Southern hospitality while you're here (and drink some sweet tea as well)! Let any of us know if you have questions or if we can assist you during your visit.

B-LINE MEDICAL®

B-LINE MEDICAL is a leader in medical simulation technologies specifically designed to capture and evaluate training activities. With a 98% client retention rate and the ability to integrate with the broadest range of devices in the industry, B-Line Medical enhances quality and efficiency by providing powerful tools for data capture/analysis.

CAE Healthcare

CAE HEALTHCARE delivers leading-edge simulation training solutions to hospitals, physicians, nurses, students, emergency responders and the military around the world. Each product is developed in partnership with clinicians and clinical educators whose aim is to ensure physiological accuracy and educational relevance. Visit the CAE Healthcare booth to learn about our advanced patient, imaging and surgical simulators, including iStan, Caesar, VIMEDIX and LapVR. Ask about Blue Phantom ultrasound trainers and LearningSpace center management solution.

For more than 40 years **CARDIONICS** has been an innovator and leader in the auscultation products and services which facilitate and support classroom education, clinical and tele-health programs in medical institutions and universities worldwide. Cardionics was founded by the late Dr. Abe Ravin, MD, DACC, in 1969, who developed the first heart and sound simulator to assist his students in learning to identify normal and abnormal cardiac and pulmonary sounds. Today, Cardionics' approach continues to set the pace for auscultation products and services through the development of unique, interactive and experimental systems that integrate seamlessly into classroom, clinical and tele-health applications. The Cardionics Learning System is a comprehensive approach to teaching and learning critical auscultation and clinical skills. Cardionics products are used in the classroom, simulation lab and online. In the classroom, students are introduced to critical concepts. In the lab, concepts are put into practice. Online, concepts are reinforced and assessed. By developing these supportive tools, Cardionics aim is to provide fun and easy interaction while teaching and learning critical skills.

Orion is **EMS'** next generation simulation management platform for both SP and mannequin-based training for improving learners' skills and optimizing patient outcomes. EMS offers complete turnkey solutions for training environments that include integration with simulators, audio-video technology, design and planning, engineering, configuration, installation, training, data backup and one-call support for both software and hardware. The best hospitals and academic institutions use EMS' industry leading solutions to improve the skills of their health care providers for delivering better patient care. EMS offers simulation management solutions for one- to multiple-room fixed spaces and portable and mobile units for in-situ training.

LIMBS & THINGS designs, manufactures and promotes clinical and surgical skills training products. The Company is dedicated to improving patient care by supporting healthcare professionals in their training. Our goal is to produce products which allow clinical educators to successfully deliver their curriculum requirements for physical examination and procedural skills. To achieve this we will continue to work closely with leading clinicians, exploring new technologies and materials and promoting our products within a worldwide marketplace.

OTOSIM INC offers Otoscopy and Ophthalmoscopy training & simulation systems. Through hands-on simulation, extensive content, and enhanced interactivity, OtoSim training systems enable trainees to quickly & effectively develop confidence in their practical otoscopy and ophthalmoscopy skills to excel in the clinical environment. OtoSim helps bridge the gap between textbook learning and the clinic.

Why not train how you practice? **LECAT'S VENTRILOSCOPE BY SIMPLYSIM** allows seamless integration of findings with a Standardized Patient. Change murmurs with maneuvers, synchronize your heart and lung sounds with your mannequin, or teach Blood Pressure to 200 students at once. Put "any sound, anywhere!" **PREVENT** the next code!

The **SOCIETY FOR SIMULATION IN HEALTHCARE (SSH)** is a multidisciplinary society comprised of educators and researchers who utilize healthcare simulation for education, testing, research, and systems integration. The membership, now over 3,000, is united by its desire to improve performance and reduce errors in patient care using all types of simulation.

POSTER GROUP A – HYBRID AND INTERPROFESSIONAL EDUCATION

P1: Interprofessional Error Disclosure Simulation Benefits Both Students and Faculty

Presenters: Dena K. Higbee, MS; Gretchen Gregory, RN, MSN; Erica Ottis, PharmD; Leslie Hall, MD; and Carla A. Dyer, MD

12th Annual Association of Standardized Patient Educators Conference Schedule

SUNDAY, JUNE 23, 2013 (CONTINUED)

P2: Interprofessional Communication: A Comparative Teaching Strategy For Pharmacy Students

Presenters: Hollis D. Day, MD, MS; Susan M. Meyer, PHD; Helen K. Burns, PHD; and Valerie L. Fulmer, BS

P3: An Interprofessional Rounding Simulation with Students of Medicine, Nursing, and Pharmacy

Presenters: Lee Ann Miller, EdD, David Wilks, MD; Jay Martello, PharmD; Charles Ponte, PharmD; Jason Oreskovich, DO; Daniel Summers, RN, BSN, CEN, EMT-P; Gail Van Voorhis, MSN, RNC; Rebecca Kromar, DNP, MBA, RN; Jon Wietholter, PharmD; Lena Maynor, PharmD; and Gina Baugh, PharmD

P4: Developing a Standardized Patient Program for Interprofessional Education Using Student Participants

Presenters: Patricia A. Reidy, DNP, and Kelly Macauley, DPT

P5: Using Standardized Patients in an Interprofessional Continuing Health Professions Education Program to Teach Motivational Interviewing to Improve Patient Adherence

Presenters: Cassandra L. Konen, BA, BS; Holly A. Gerzina, MEd; Michele E. Rosenberger, BA; Heather N. May, BS, EMT-P, EMS-I; Susan M. Fosnight, RPh, BCPS, CGP; Daniel L. Krinsky, MS, RPh; Richard J. Kasmer, PharmD, JD; and Timothy R. Ulbrich, PharmD

P6: Sometimes a High-Fidelity Simulator is Not Enough: Use of Standardized Patients in Simulation Scenarios with Medical Students

Presenters: Kathryn M. Powell, MA, and John Szarek, PhD

POSTER GROUP B – TECHNOLOGY AND CURRICULUM DEVELOPMENT

P7: The Incorporation of Standardized Patients (SPs) into an Online Learning Environment

Presenters: Donamarie N-Wilfong, DNP, RN, and Laura Daniel, PhD

P8: Pediatric Telemedicine Group SP Encounter for Block 1 Medical Students

Presenters: Gigi Guizado de Nathan, BA, and Thomas J. Hunt, MD

12th Annual Association of Standardized Patient Educators Conference Schedule

SUNDAY, JUNE 23, 2013 (CONTINUED)

P9: Touching a Patient With or Without Words in Emergency Care: Comparing Trainings With a Simulated Patient and a Mannequin

Presenters: Frank Coffey, MD; Keiko Tsuchiya, PhD; Stephen Timmons, PhD; and Svenja Adolphs, PhD

P10: A Bioethics OSCE Elective Increased Student Perception of Value in Bioethics Education

Presenters: Sarah H. Parrott, DO, and Cheryl Beng

POSTER GROUP C – INNOVATIONS AND INTERNATIONAL

P11: Use of Medical Students as Standardized Students in a Faculty Development Objective Structured Teaching Exercise (OSTE)

Presenters: Perrilynn A. Baldelli, MSN, Kathleen Burke, BSN, and Wei-Hsin Lu, PhD

P12: Palliative Care Training: Using Standardized Patients (SPs) in the Simulated Home Environment

Presenters: Randy Hebert, MD, MPH, MMM; Terry Hurley, RN, BSN, MSN; Laura Daniel, PhD; Larry O'Leary, BA; and Donamarie N-Wilfong, DNP, RN

P13: Improving Pediatric Disaster Triage Education in the Pre-Hospital Setting Using Standardized Patients

Presenters: Jorge D. Yarzebski, BA, EMTP; Mark X. Cicero, MD; Frank Overly, MD; Linda Brown, MD; Wendy L. Gammon, MA, MEd; and Barbara Walsh, MD

P14: Flying High: Integrating Hybrid Standardized Patient Simulation Modalities in Training Programs for Flight Medics and Other Critical Care Transport Specialists

Presenters: Jorge D. Yarzebski, BA, EMTP; Wendy L. Gammon, MA, MEd; Adam Darnobid, MD; William Tollefsen, MD; and Angela Talbot, RN

P15: Give PEACE a Chance...A Novel Way to Incorporate SPs in Police Investigation Training

Presenters: Jacqueline M. Turner, BA; Paula J. Mullins-Richards, RN; and Brent Snook, PhD

SUNDAY, JUNE 23, 2013 (CONTINUED)

P16: The Difference in the Achievement of Clinical Practice Examination According to the Type of Medical Schools

Presenters: Hoon-Ki Park, MD, PhD; Jwa-Seop Shin, MD, PhD; and Young-Mee Lee, MD, PhD

POSTER GROUP D – ADMINISTRATION AND PROFESSIONAL DEVELOPMENT

P17: Tapping into Community Resources for Part-Time Standardized Patients

Presenters: Stephen Charles, PhD; Jennifer Brantley, PhD; and Kris Roudebush

P18: Standardized Patient Center Internships: Collaborating with Local Universities

Presenters: Jennifer Brantley, PhD; Stephen Charles, PhD; and Kris Roudebush

P19: PARTNERING WITH THE MEDIA TO PROMOTE STANDARD PATIENT METHODOLOGY

Presenter: Cindy C. Bartman, BSN

P20: DEVELOPING QUALITY CRITERIA FOR THE RECRUITMENT OF SIMULATED PATIENTS

Presenters: Beate G. Brem, MD; Regina Christen; Kai Schnabel, MD; and Sabine Richter, MD

P21: USING STANDARDIZED PATIENTS TO PREPARE “SUPER USERS” FOR AN EMR ROLLOUT

Presenters: Jeanette Wong, MPA, BSN, and Celeste Villanueva, CRNA, MS

POSTER GROUP E – EDUCATION

P22: USE OF STANDARDIZED PATIENTS TO EVALUATE MEDICAL STUDENT CLINICAL SKILLS EVALUATION POST ENCOUNTER NOTES

Presenters: Rhonda A. Sparks, MD, Michelle D. Wallace, BS, and Britta M. Thompson, PhD

P23: Evaluating Interpersonal Skills a La National Board: The New Mid-Atlantic Consortium (MAC) Communication Scale

Presenters: Benjamin Jim Blatt, MD; Joeseoph Lopreiato, MD; Karen Lewis, PhD; and Jorie Colbert, PhD

12th Annual Association of Standardized Patient Educators Conference Schedule

SUNDAY, JUNE 23, 2013 (CONTINUED)

RACHEL H. ELLAWAY PhD

Assistant Dean of Curriculum and Planning and Director of Simulation, Northern Ontario School of Medicine, Sudbury, Ontario, Canada

Rachel Helen Ellaway, PhD, is the Assistant Dean for Curriculum and Planning, Director of Simulation and an Associate Professor for Education Informatics at the Northern Ontario School of Medicine in Canada. She was previously Director of eLearning for Medicine and Veterinary Medicine at the University of Edinburgh. Widely published in the field of medical education her academic work concentrates on online learning, simulation and the use of new technologies for teaching and assessment in and around health professional education. Dr. Ellaway was also the instigator of, and is the ongoing *Maîtresse de Cérémonies* for, the AMEE Conference Fringe and her work in developing and implementing online health professional educational systems was recognized in the award of a Queen's Anniversary Prize for Higher and Further Education to the University of Edinburgh in 2005.

JAN-JOOST RETHANS, MD, PhD

Associate Professor, Director of the CORE (Consultational and Reflective Skills) Programme, Director of the Simulated Patient Programme and coordinator of the Master Phase Skillslab programme, Faculty of Health Medicine & Life Sciences (FHML), Maastricht University, The Netherlands

Jan-Joost Rethans studied medicine at Maastricht University. After finishing specialist training in family practice, he worked 17 years part-time as a family physician and as a researcher at the Research Institute 'Extra' of Maastricht University. During this period he also worked three years in Norway as a clinician and as a researcher. He has a PhD in Medical Education from Maastricht University (1990, 'cum laude'-rating). He delivered seven PhD students who all conducted studies in the field of performance assessment of physicians, mostly using the methodology of incognito standardized patients. In 1998, he joined the Skillslab of FHML, Maastricht University. He was elected as chair (1998-2004) of the Executive Board of the European General Practice Research Network (EGPRN). In 2004 he joined the Board of Directors of ASPE (Association of Standardized Patient Educators), where he was initiator and first chair of the Committee ASPE-International. He held positions as visiting professor at Gifu University, Medical Education Development Centre, Japan and at Osaka Medical School, Osaka, Japan (2008). In 2010, he received the Outstanding Educator Award 2010 by ASPE as first person outside North America. In 2011, he was nominated for the Maastricht University Education Award. Dr. Rethans is author/co-author of more than 70 publications in international peer-reviewed medical journals. The majority of his papers deal with simulated or standardized patient methodology. Jan-Joost Rethans is married to the love of his life and is a proud father of five children.

ASPE Outstanding Educator Award

In recognition of the outstanding talent within ASPE, we annually honor an individual ASPE member through the “Outstanding SP Educator Award.” The former recipients of this award are listed below. Nominations are sought each year a few months before the Annual Conference. We encourage both self-nominations and the nomination of worthy colleagues. The award is decided upon by a committee of former recipients that is selected by the President of ASPE.

To be eligible for the award, the nominee must: Be an active member of ASPE; have been involved in SP education/training for more than seven years; have made significant contribution to the SP community by providing professional development and/or guidance to newcomers in the field; be recognized as a leader by working with varied levels of faculty within their own institution, the SP community, and in national or international organizations (e.g., ASPE, AAMC, CAME, NBME, ECFMG, etc.).

2013 Association of Standardized Patient Educators Research and Project Awards

Overall Goal of ASPE Research and Project Awards: The overall goal is to provide incentive awards to current ASPE members for unique research studies or development projects related to the use of Standardized/simulated patients (SP). All studies/projects must be consistent with ASPE's mission and goals. Studies to identify best practices in SP education are particularly encouraged.

ASPE is the international organization for professionals in the field of SP methodology. ASPE is dedicated to: professional growth and development of its members; advancement of research and scholarly activities related to SP education; establishing best practices in SP education

Amount of Funding: \$15,000- can be divided into smaller awards

Period of Funding: January 1, 2014- December 30, 2015

Proposal Due Date: Oct 1, 2013

Award Notification: Dec 1, 2013

Criteria for Evaluation: All research/project proposals will be evaluated by members of the ASPE Grants and Research Committee. Investigators may be asked to revise and resubmit their work for further consideration within the review period. This opportunity would be provided for those proposals which are considered promising, but in need of minor revision or modification. The review criteria are listed below: Primary Investigator is a member of ASPE at time of submission and throughout the entire funding cycle [NOTE: Current members of the ASPE Board of Directors and Grants & Research Committee are not eligible for the award]; we strongly encourage the inclusion of standardized patient educators/trainers as part of the research/development team; the proposal follows the required format (includes all components, does not exceed word or budget limitations, etc.); demonstrates relevance to the mission of ASPE; expected outcomes of the research study or project advance the field of standardized patient education and not merely the local institution (multi-institutional collaborations are encouraged); expresses sufficient familiarity with recent developments in the field and/or provides a context for the research study or project; relates to a specific question, problem, or hypothesis; investigators are able and qualified to carry out the research/project; timeline is realistic; start-up funds are supported with evidence of long-term viability (if applicable); methodology is appropriate and clear; budget meets the approved guidelines; budget is cost effective; priority will be given to projects that address interprofessional education and or communication skills.

Requirements for Award Recipients: following award notification, briefly present research/project overview to ASPE members at the 2014 annual meeting*; submit research/project update six months following the award; provide year 1 update to ASPE members at annual meeting in 2015; provide year 2 final report summary to ASPE members at annual meeting in 2016; submit final research/project report; acknowledge sponsorship (see below); provide written summary of research study or project for publication in the ASPE Quarterly.

*[*NOTE: If the Primary Investigator is unable to attend an annual meeting during the award cycle, a substitute may present the information.]*

Acknowledgements for Publication: Recipients should submit to ASPE a copy of any reprints of publication resulting from research activities supported by ASPE. Any research published or presented that has received support from ASPE should have a citation as follows:

This work was supported by the Association of Standardized Patient Educators.
